

# Canoe / Kayak Livery Update

We have some GREAT News! The DNR Canoe / Kayak Livery issue is no longer a concern. The Board of Directors purchased the property on both sides of Goose Creek effectively blocking the DNR from setting up shop there.

It is the intention of the Board to have an attorney apply restrictions to the properties similar to what all of our properties currently have - the restrictions will be forever.

The house on the west side of Goose Creek has been relisted for sale with a local realtor. We will hold the property on the East side of the creek for now until more plans unfold.
